

BREAKTHROUGH

UNCOMPROMISING SERVICE, ON DEMAND.

WORLDWIDE AIRCRAFT CHARTER & MANAGEMENT

Welcome to Executive Air Services (EAS), at Opa Locka Airport, EAS since 2002, has a long history of transporting our clients in a safe and timely manner, with a team of professionals dedicated to the industry we love, and did so by placing a [jet aircraft on a golf course](#) during the 2003 Ford Championship Tournament to celebrate our launch and aviation's 100th anniversary of The Wright Brothers first flight!

We provide our clients with the greatest service, "The Power of Time" by offering the fastest and safest form of private transportation, through our FAA Authorized Aircraft Charter Fleet and support services: Jet Sales, Maintenance, Fuel, and Hangar Management.

Our journey and milestones began 1996, with our sibling FBO company, Miami Executive Aviation. Along with EAS transformed the face of Miami Opa Locka Executive Airport (OPF) by extending the hours

of operations of US Customs as a Port of Entry, along with successfully navigating major world challenges, like 9/11, the 2008 recession, and the pandemic, while being a humanitarian supporter of Brothers to the Rescue and title sponsor of the Flying Classroom.

As we celebrate over 23 years of safe operations, we continue to grow, expanding our facilities and services to meet evolving client needs. At EAS, our goal is not to be the largest but the right-sized operator, providing tailored, proactive services to protect our clients' most valuable assets: people and time.

NEW EXPANSION

UNCOMPROMISING SERVICE, ON DEMAND.

WORLDWIDE AIRCRAFT CHARTER & MANAGEMENT

At Miami-Opa Locka Executive Airport (OPF), we are proud to be the ONLY independent aircraft charter operator with scalable hangar facilities spanning 33,000 square feet. This capacity supports our growth alongside our newly managed clients and Gulfstream Maintenance Services, accommodating aircraft of all sizes, including the BBJ.

With our location, facilities and strategic partnerships, like [The Jet Business](#), together brings unparalleled expertise, and expanded support services for aircraft sales both in the US and in Overseas. Our distinctive capabilities as a FAA Operator place us in a league of our own at one of the US's premier airports for business aviation!

For more information about our services, contact us:
